Student organizations are an essential part of the University of Florida community and play a vital role in providing important learning opportunities and a rich and diverse campus life experience for UF students. Registered student organizations have access to designated University resources (including possible eligibility for funding, priority use of University facilities, and posting on the website for Student Activities and Involvement) pursuant to applicable University rules, regulations, and guidelines, including the Student Organization Handbook.

I have read and understand the following policies and regulations:

- **Non-Discrimination (UF-1.006)**
  A registered organization will not discriminate on the basis of race, creed, color, religion, age, disability, sex, sexual orientation, gender identity and expression, marital status, national origin, political opinions or affiliations, genetic information and veteran status as protected under the Vietnam Era Veterans' Readjustment Assistance Act.

- **Sexual Harassment (UF-4.041)**
  A registered organization will not engage in any activity that is unwelcome conduct of sexual nature that creates a hostile environment.

- **Hazing (UF-4.041)**
  A registered organization will not initiate, support, or encourage any events or situations that recklessly, by design, or intentionally endanger the mental or physical health or safety of a student for any purpose including but not limited to initiation or admission into or affiliation with any student group or organization.

- **Student Leader Eligibility (UF-4.003)**
  A registered organization must have a minimum of two elected officers: President and Treasurer and these officers must meet the eligibility requirements. The president and treasurer of a student organization must be a fully enrolled student, maintain a 2.5 GPA, and remain free from conduct probation and any financial holds.

- **Commercial Activity (UF-4.006) (6C1-4.006)**
  A registered student organization may only sell goods or products directly related to the student organization's mission and purpose. Approval for such sales must come from the Department of Student Activities and Involvement prior to their sale. Organizations may not front or represent an outside company.

- **Responsibility to Report**
  A registered organization will report any such behavior mentioned immediately to Student Activities and Involvement, the Director of Student Conduct and Conflict Resolution, or the University's Title IX Coordinator.

As the president of this student organization, I agree to the above terms and conditions required of all registered student organizations at the University of Florida. I also understand that it is my responsibility to share this information with my entire membership and that I am accountable to doing so within the first 2 weeks of the semester.
